Against online hate – For more online civility

The early vision of the Internet as a place for the development of collective values and community is severely hampered by plenty of aggressive and hateful voices online. What do organisations that provide and administer communities for online discussions do to prevent harmful online communication? And how can we all contribute to fostering more online considerateness and civility?

Supported by:

Programme

17:30

Welcome and opening address

Sabine Einwiller (University of Vienna)

Katharine Sarikakis (University of Vienna)

17:40

Online hate speech against women

Anthony Loewstedt (Webster University)
